About us

BOOK-A-TALE

The trip

Hi from Lida
and Hello from Agnes.

We started our trip in the World of Children's Books, with our heart, soul, passion and years of experience in children's books as author, illustrator, graphic designer and publisher.

At that moment we could not imagine where and how this trip was heading to. Nowadays we build our book list the way we want it to be, with (proverbial) children on our lap, close to the creative process. We can hardly describe the fun and fulfilment we get out of this and for which we feel very thankful. On our way as travelers, we already met a lot of nice, interesting people, encouraging our project.

Our planted tree is still small, but already reveals a beauty and charm and truthfulness to children. Captured already in the World, some of our books are sold and or published in Greece, South Korea, Germany, China and in the Dutch language territory.

We love the idea that children out there can enjoy the stories we carefully give life for them.

Meanwhile we hope we will be able to do so for many years to come.
